

# LIVE STREAMING

Oslo Science Park now has the possibility to stream a meeting or presentation from Faros to YouTube, Facebook or another RMTP streaming-service.

To use and setup the stream we need some information from the you.

1. What streaming-service do you intend to use?
2. Do you also want to share the stream with Oslo Science Park's Facebook site?
3. What do you want to film and share to the stream (e.g. presentation slides)?
4. Streaming-key from your selected streaming-service.

If you have any questions about the service or want to know more, contact

## Tips and tricks:

- Don't use any copyrighted media. Facebook and Youtube will now allow that.
- Funnily enough, striped shirts or pants will make the stream slow.
- Video from a presentation will not show in a high quality.
